Archway receives CLARCOR Foundation grant

Kearney, Neb. – The Archway announced today it had received a grant from Baldwin Filters' parent company, CLARCOR, through its foundation.

The grant totaled \$15,000 and will go toward updating and improving outdoor sidewalk lighting as well as making repairs to the sidewalk itself. "We are excited to receive this grant as it will help us to fix a few key items on our maintenance list," said Archway Marketing Coordinator Jace Robinson.

Robinson said, "We continue to work toward updating and improving the facility as much as possible to increase the longevity of The Archway. Grants like the one from the CLARCOR Foundation go a long way to helping us accomplish our mission to educate guests about the importance of Central Nebraska and the Great Platte River Road in the development of the United States."
