Archway receives grant from Cope Foundation

Kearney, Neb. – The Archway announced it has received a \$50,000 grant from the Ron and Carol Cope Foundation to assist with energy efficiency improvements as well as maintain and upgrade mechanical systems in the building.

The grant money will be used to replace incandescent bulbs in the exhibit with energy-efficient LED bulbs and projectors that display on several screens throughout the exhibit. Also, funds will be used to improve the heating and cooling systems throughout The Archway.

Marketing Coordinator Jace Robinson said, “These improvements will not only reduce operating costs but will also enhance our customer experience. We couldn’t be more grateful to the Ron and Carol Cope Foundation for this grant. The Cope Foundation has been a long term partner and supporter of The Archway.
